

We Empower Your Ideas With Solutions In Sharing Economy

What is Sharing Economy?

The sharing economy allows people to easy access to products and services from someone else through an internet platform, usually on a peer-to-peer basis. Some of the most noteworthy businesses include: AirBnB, BlaBlaCar, TaskRabbit, Etsy and Uber.

	TRADITIONAL	SHARING ECONOMY
Business Model	Linear	Network
Asset Structure	Asset Heavy	Asset Light
Core Competence	Industry Specific	Software
Company Focus	Operational Performance	Customer Experience
Workforce	Fixed	On-demand

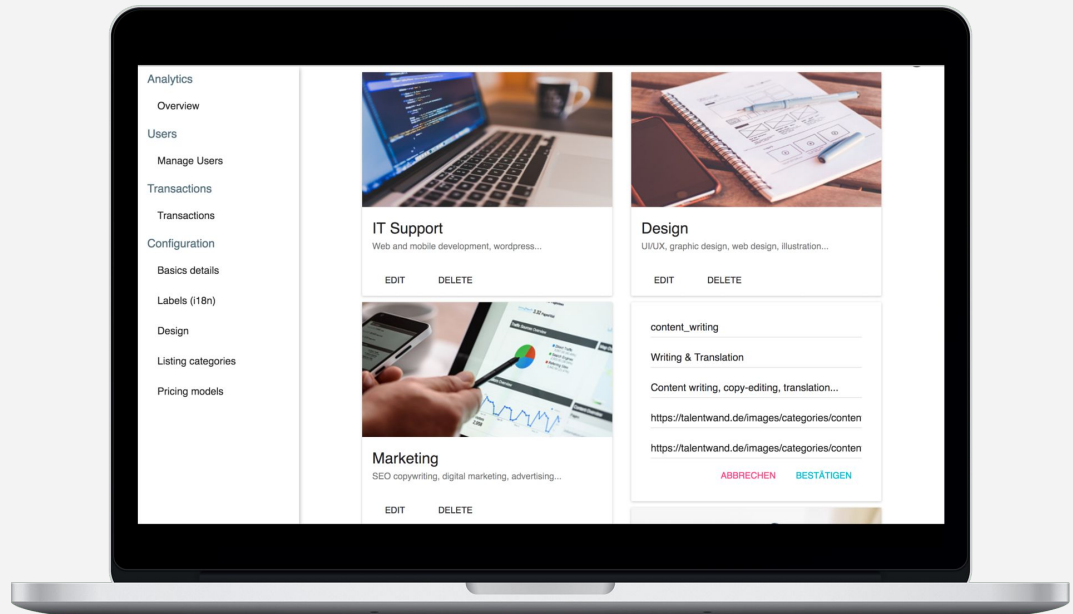

Sharing economy revenues are expected to “grow around 10 times faster than the wider economy as a whole”.

We Master Sharing Economy

VQ-Marketplace: Launch and manage your own custom marketplace

VQ Labs builds your online marketplace in sharing economy and connects your users in one platform. We provide you with a seamless solution with end-to-end implementation.

We take care of preparation and organization, customizing and adjustments of the VQ-software, implementation of all individual extensions and deployment into secure and scalable cloud.
